

Recitation week 5

Presentations, videos, questions due 9/15 (Tuesday) at 3pm

Answers to questions due 9/26 (Saturday) at 11pm – you must answer 2 questions for each team member to equal 12-14 answers.

Each of you in your team is to prepare a presentation (must have 1 title slide + at least 4 slides + 1 references slide) for the following topic:

Find a paper in google scholar on the lack of diversity in CS; present some of its key points and if you do or do not agree with them

You will make a video of you giving your presentation. You can use techsmith relay, zoom, or any other method that you feel comfortable with. Your video needs to be around 4 minutes long.

Place your video in your teams area. Make sure the name of the file includes your name in it. (Example: mary_cummings_lack_diversity.mp4). This file needs to be in your team area by Tuesday, 9/15 at 3pm.

Post your presentation file in Week5 recitation in the assignments folder of Brightspace. It must be a title slide, 4 slides of content and 1 references slide.

You will put 3 questions related to your video presentation in your teams chat area (also by Tuesday, 9/15 at 3pm). These need to be questions that will give a thoughtful response. (Can't be "Did you like the presentation?"). Some examples: Provide one thing you did not agree you with in the presentation? Why? (can do the same thing for agree) OR Compare your example to mine. How are they similar? OR What is my example important to the future of Computer Science?.

If this is your week to present in class, you only have to create the presentation file and put in brightspace assignments folder by the same due date. Then I will display it for your presentation in class. You do not have to create the questions or upload the video for your class presentation week.

Points:

Presentation (presentation grade) – 100 points:

20 points – content supports the week 5 topic above

10 points – video is at least 4 minutes

10 – had at least 4 slides + 1 title slide + 1 reference slide

25 points – it is clear you read the paper and explained it and you showed what you agreed with and what you didn't agree with.

10 points – must cite where you got your information from – that is not your own opinion and must state when it is your opinion – used proper citing (MLA, APA, etc). It must be in the reference slide with the references numbered to link to the places in the presentation where you use the information.

25 points – put 3 thought provoking questions in your teams area for your presentation

Answering the questions (discussion grade) – 20 points:

6 points – answered 2 questions

8 points – gave thought provoking answers

6 points – length of answer was around 4 lines.
