

Paper 1, CSCI 215, Fall 2020

Write a paper on some futuristic computer technology topic and describe possible ethical issues that could arise from this technology. This subject should give you lots of freedom to choose a topic area.

For example, you may choose to write a paper about flying cars or terminator, etc.

Requirements

- Must be at least 4 pages in length (plus a references page), double spaced, no more than 12 pt font.
- You must cite at least 3 references in your paper. This can't be entirely your own opinion.
- You must frame your topic in the first paragraph.
- You must have a conclusion paragraph.
- You will be graded on grammar, good writing skills and content.

Hints

- Go to the writing center if you need help in how to write a paper.
- See me if you need help with a topic.

Submission

- Due Thursday, 10/1 at 11pm in brightspace – no late submissions allowed

Grading rubric

- 20 - at least 4 pages in length (plus the references page), double spaced, no more than 12 pt font.
- 10 - correct citing of your references – at least 3 references
- 7 - Introduction paragraph that frames what your paper is about
- 7 – Conclusion paragraph that sums up your paper
- 30 – your paper fits the purpose of this assignment – good content
- 26 – grammar and good writing skills – no run on sentences, no sentence fragments, etc
