

## Recitation week 11

Presentations, videos, questions due 10/27 (Tuesday) at 3pm

Answers to questions due 10/31 (Saturday) at 11pm – you must answer 2 questions for each team member to equal 12-14 answers.

Each of you in your team is to prepare a presentation (must have at least 1 title slide + 4 slides + 1 slide showing which ACM ethics principles this example violates + 1 references slide) for the following topic:

An example of some ethical issue we did not cover in class

This is a broad topic to give you flexibility in creating your answer/presentation. If you have created a presentation on something fitting this topic before, you must find a different topic. There are so many that I know you can find another one.

Your presentation must have facts from others, not just your opinion. You must cite where these facts came from.

You will make a video of you giving your presentation. You can use techsmith relay, zoom, or any other method that you feel comfortable with. Your video needs to be around 4 minutes long.

Place your video in your teams area. Make sure the name of the file includes your name in it. (Example: mary\_cummings\_robot\_ethics.mp4). This file needs to be in your team area by Tuesday, 10/27 at 3pm.

Post your presentation file in Week11 recitation in the assignments folder of Brightspace. It must be a title slide, 4 slides of content and 1 references slide.

If this is your week to present in class, you only have to create the presentation file and put in brightspace assignments folder by the same due date. Then I will display it for your presentation in class. You do not have to upload the video for your class presentation week.

Points:

Presentation (presentation grade) – 100 points:

20 points – content is in support of the topic above

10 points – video is at least 4 minutes

10 – had at least 4 slides + 1 title slide + 1 reference slide + 1 slide showing which ACM ethics principles that this example violates

25 points – content is not just your opinion – the author did research and did not just provide their own opinion. Put a mark ([1], etc) on the cited work/line that links to your references in your final slide.

10 points – must cite where you got your information from – that is not your own opinion and must state when it is your opinion – used proper citing (MLA, APA, etc). It must be in the

reference slide with the references numbered to link to the places in the presentation where you use the information.

25 points – put 3 thought provoking questions in your teams area for your presentation

Answering the questions (discussion grade) – due 10/31 at 11pm – 20 points:

6 points – answered 2 questions

8 points – gave thought provoking answers

6 points – length of answer was around 4 lines.
